

EVENTS

As part of the GAP project, several events will be organized to gather feedback from participants, which will enable us to enhance the inclusivity toolkit. These events will also provide an opportunity to address the central themes of the project: inclusivity, accessibility, and diversity in Higher Education Institutions (HEIs). Additionally, each event will serve as a platform to discuss the project's outcomes and to broaden the impact on improving training for all.

- **Online panel discussions**
- **National workshops**
- **Final conference**
- **Study visits**
- **Staff and student training**
