

# FINAL CONFERENCE

Final Conference in Brussels on April 30th

The final event of the Erasmus Gap project will bring together higher education institutions, policymakers, researchers, and practitioners from across Europe to present and discuss the project's key findings on inclusivity in student mobility. The event will highlight the project's main outputs, including the inclusivity toolkit and data visualisation platform aimed at reducing disparities in access to Erasmus+ mobility opportunities. The event will provide a space for dialogue on how to build more inclusive higher education systems and ensure that mobility programmes better reflect the diversity of the overall student population.
